Crosswalk

(South Dakota's Early Learning Guidelines &
Kindergarten Content Standards)

Overview

What Does the Crosswalk Include?

- ▶ South Dakota Early Learning Guidelines (ELG)
- ▶ South Dakota Kindergarten Standards (K Stand)

What is the Purpose of the Crosswalk?

- ▶ Create a continuum of learning
- ▶ Support effective transition from Pre-K programs to Kindergarten
- ▶ Can be used as a planning tool to promote development for children entering kindergarten

Organization of Crosswalk

Domains: ELG

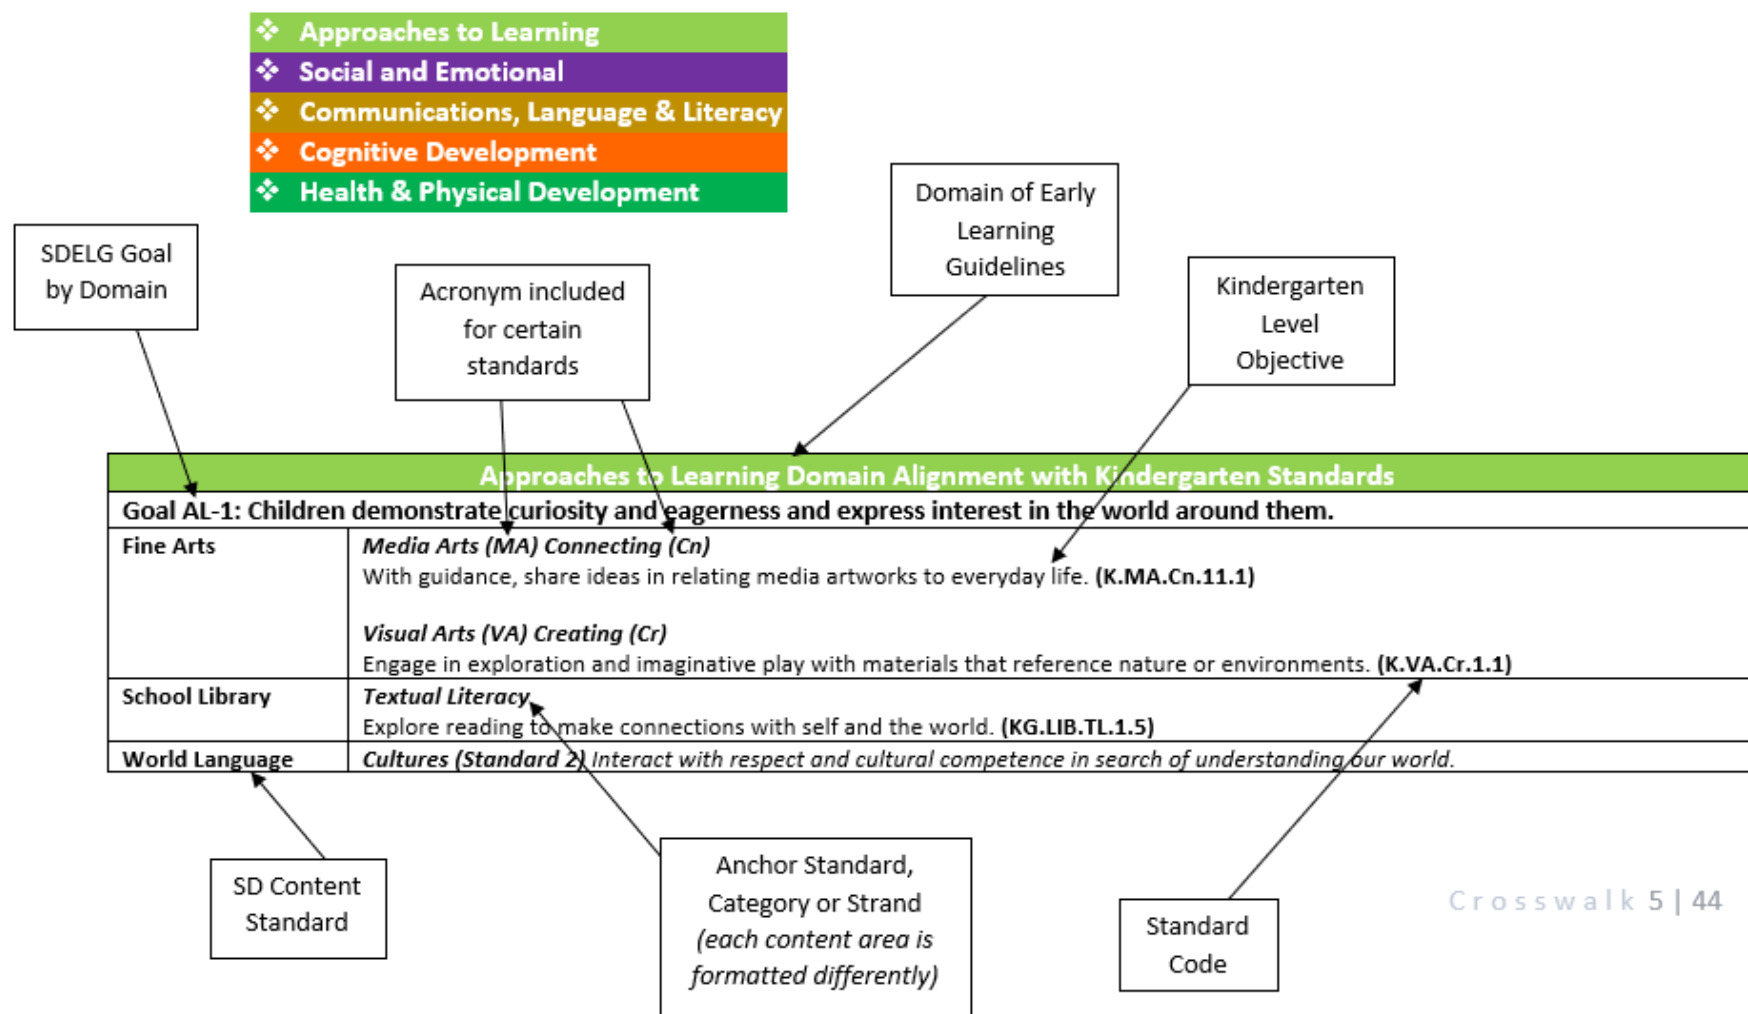

- ▶ Approaches to Learning (AL)
- ▶ Social and Emotional (SED)
- ▶ Communications, Language & Literacy (CLL)
- ▶ Cognitive Development (CD)
- ▶ Health & Physical Development (HPD)

Content Standards:

- ▶ English Language Arts
- ▶ Mathematics
- ▶ Science
- ▶ Social Studies
- ▶ Educational Technology
- ▶ Fine Arts
- ▶ Physical Education
- ▶ School Library
- ▶ Health Education
- ▶ World Language

ORGANIZATION OF THE CROSSWALK

Each goal of the South Dakota Early Learning Guideline (SDELG) has been included in this crosswalk. The Kindergarten Content Standards have been added to the goals where they most closely match. Some of the ELG goals may not have a content standard that closely represented the skill, but one goal could contain more than one content standard. The document is divided by the 5 domains of the guidelines and each domain represents the color chart used in the SDELG published in 2017.

Distribution of Crosswalk

Post-Secondary Institutes: those that offer Early Childhood Education, Elementary Education with EC Endorsements or Certifications

Early Childhood Enrichment Centers: 5 in SD

District Pre-K, JK, and Kindergarten schools

Agencies pertinent to Early Childhood development: Part B and Part C, Parent Connections, SD Statewide Family Engagement Center, SDPB Early Learning Initiatives, SASD, etc.

A screenshot of a video conference interface. It shows two participants in separate video windows. The participant on the left is a man with glasses and a beard, smiling. The participant on the right is a woman with curly hair and glasses, also smiling. The interface includes a search bar at the top and a control bar at the bottom with icons for mute, video, chat, and other functions.

Coaching

Cohort 6 Results

18 Trainees completed the training, field practice, and reliability review

3 Master Coaches

8 Peer Coaches

10 of 18 trainees achieved reliability after their 3rd video

I believe it has made me a better provider. I feel as though I am actually helping the family and the child at the same time (which I never felt like that prior to this). I really enjoy the mutual communication and problem solving. I also like how it is based on the families' typical routines.

~Cohort 6 trainee (OT)~

Cohort 7 Outlook

22 Trainees

3 Master Coaches

8 Peer Coaches

Begins April 9, 2021

What trainees are saying about BB...

- It empowers the parents to know that doing small things several times a day, a week, in their regular schedule is better and easier than they thought. And they understand that doing this is better for carry-over for achieving their goals for their child than a "once a week session" by the therapist
- Parent/child interactions have been strengthened. The parent can SEE more success that the child is having, and this is reducing the parent's overall stress.
- It has strengthened my partnership with parents. It almost forms a comradery in the sense of we are a team working on this and strengthens the parent to work throughout the week when I am not there

The Power of RBI and Bright Beginnings Together!

- “Service coordinator: Kristi was absolutely wonderful from day one to the last day. She made me feel comfortable, like I wasn’t alone in what my child was going through and made sure I fully understood everything every step of the way. I cannot RAVE & RECOMMEND Birth to 3 enough. I am sure my son would have learned how to speak effectively eventually, but the Birth to 3 tools and resources made that process so much faster and easier.
- Therapist: FIVE STARS PLUS! Melanie was a dream to work with. She was so patient understanding, knowledgeable, and kind to everyone involved. Beckham LOVS her and seriously couldn’t wait for speech days. She made learning fun for him and gave me info necessary to apply what was needed between meetings.
- *We would not be where we are today without both Kristi & Melanie. I cannot explain the impact both of these women had on our family. 100% recommend. A+++++

Upcoming Changes

Revamped schedule for training

- Less time, more rigor

Re-evaluation of coaching rotation

- Coaching on demand

Option of graduate credit

- SDSU reduced cost credits

Looking at training in college programs

- undergrads in ECE or HDFS, graduate programs in SLP, OT, PT, tech school SLPA, PTA, OTA programs

Planning future communities of practice sessions for Tier 1 Providers

- Language and Literacy, Equity, Diversity, Parenting Styles, Mental Health, and Provider driven topics

FFY2021 Grant Budget

| Category | GY2021 |
|---|-------------|
| III.A. State Agency | \$395,935 |
| III.B. Maintenance & Implementation Activities for LA and ICC | \$1,690,315 |
| III.C. Direct Services (PT, OT, Speech, etc.) | \$170,422 |
| III.D. Activities by Other State Agencies | \$0.00 |
| III.E. Optional Use of IDEA Part C Funds. | \$0.00 |
| IV.B Indirect | \$76,352 |
| TOTAL | \$2,333,044 |

Part C Funds

- 2020 Grant Funds – Carryover
 - Enhanced Data System
 - Professional Development Initiative
- American Rescue Plan (ARP)

The one-time IDEA funding in the bill includes:

- \$2.6 billion for Part B, Section 611
- \$200 million for Part B, Section 619
- \$250 million for Part C

Indicator C4

Family Outcomes

State Performance Plan / Annual Performance Report

Indicator C4 Family Outcomes

Percent of families participating in Part C who report that early intervention services have helped the family:

- A. Know their rights;
- B. Effectively communicate their children's needs; and
- C. Help their children develop and learn.

OSEP New Requirements Related to C-4 Family Survey

New requirements related to response and response representation

- Report the number of families to whom the surveys were distributed, and
- The number of respondent families participating in Part C.
- States will be required to compare the current year's response rate to the previous year(s) response rate(s), and
- Describe strategies that will be implemented which are expected to increase the response rate year over year, *particularly for those groups that are underrepresented.

C-4 New Language (cont)

The State must also

- **analyze the response rate to identify potential nonresponse bias and take steps to reduce any identified bias** and promote response from a broad cross section of families that received Part C services.
- Include the State's analysis of the extent to which the **demographics of the families responding are representative of the demographics of infants, toddlers, and families enrolled in the Part C program**. States should consider categories such as race and ethnicity, age of the infant or toddler, and geographic location in the State.
- States must describe the metric used to determine representativeness (e.g., +/- 3% discrepancy in the proportion of responders compared to target group).
 - If the analysis shows that the demographics of the families responding are not representative of the demographics of infants, toddlers, and families enrolled in the Part C program, **describe the strategies that the State will use to ensure that in the future the response data are representative of those demographics**. In identifying such strategies, the State should consider factors such as how the State distributed the survey to families (e.g., by mail, by e-mail, on-line, by telephone, in-person), if a survey was used, and how responses were collected.

Small Workgroup Members

Jordan Mouna, Parent

Mary Bowne, Program Prep

Laura Nordby, Child Care

Michelle Martin, Provider

Carla Miller, Parent Connection

Kirsten Ducheneaux, Provider

Katie Wiseman, Parent

Facilitator: Sharon Walsh, National Consultant

C4 Small Workgroup - Charge

- The Family Outcome workgroup is tasked with bringing forward recommendations to the full ICC April 2021 meeting regarding:
 - Birth to Three Family Outcome survey tool
 - When (frequency) survey tool will be distributed
 - How survey tool will be distributed (i.e., paper, online etc.).

****Quick turnaround, state will implement July 1, 2021.**

Final decisions on recommendations are based on state capacity, rule language, fiscal etc.

Data Analysis

South Dakota Birth to Three Family Survey 2019-20 Statewide

Number of Family Members Who Received the Survey: 958
Number of Family Respondents Who Completed the Survey: 287
Percentage of Family Respondents Who Completed the Survey: 29.96%

Display 1: Family Respondents Who Had A Child of this Age at Time of Survey

| | Number | Percent |
|------------------|--------|---------|
| Under 1 year old | 17 | 6% |
| 1 year old | 28 | 10% |
| 2 years old | 94 | 33% |
| 3 years old | 147 | 51% |

Display 2: Family Respondents Whose Child was Referred to Birth to Three at this Age

| | Number | Percent |
|------------------|--------|---------|
| Under 1 year old | 119 | 42% |
| 1 year old | 66 | 23% |
| 2 years old | 99 | 35% |

Display 3: Family Respondents Who Had A Special Needs Child of this Race/Ethnicity

| | Number | Percent |
|----------------------------------|--------|---------|
| American Indian/Alaska Native | 23 | 8% |
| Multi-Racial | 5 | 2% |
| Hispanic | 5 | 2% |
| Black or African American | 5 | 2% |
| Asian | 6 | 2% |
| Multi-Racial | 18 | 6% |
| Native Hawaiian/Pacific Islander | 0 | 0% |
| White | 227 | 80% |

SD Birth to Three Family Survey -- 2019-20

South Dakota Birth to Three Family Survey 2019-20 Statewide

Display 9: Response Rate - Over Time

SD Performance Over Time

QUESTION:

What survey tool should the Birth to Three program use to provide data for Indicator C4?

CURRENT PRACTICE:

Program uses state developed survey. Developed with assistance of ICC.

OPTIONS:

- Keep current practice.
- Adopt existing survey tool developed by OSEP sponsored TA.

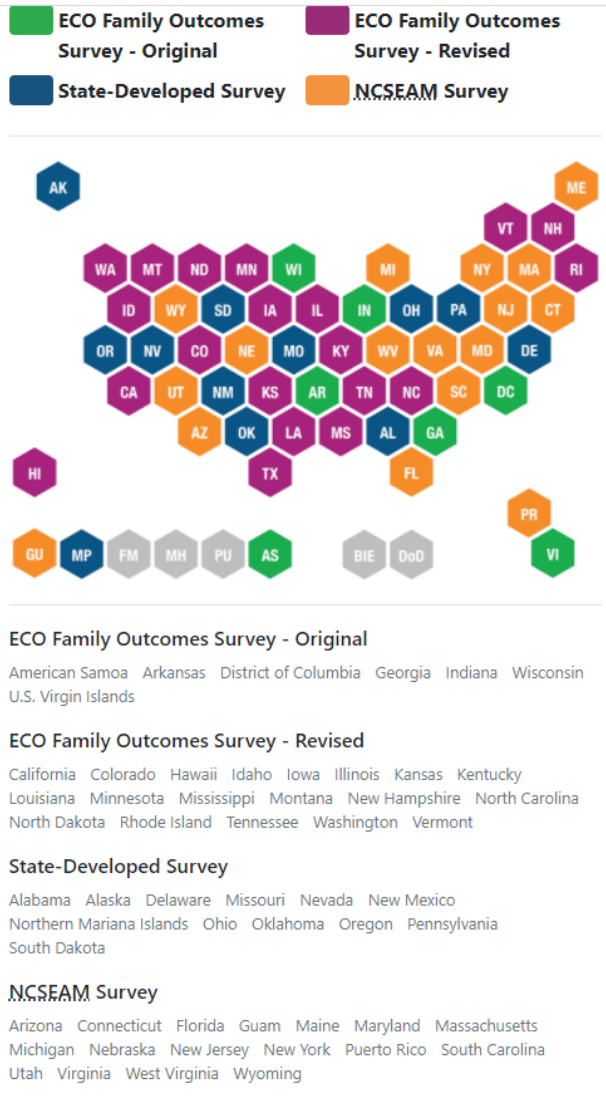

Possible Options

- 1) ECO – Early Childhood Outcome Center Family Outcome Survey (FOS)
- 2) NCSEAM – National Center for Special Education Accountability Monitoring

Survey Tool

Family Outcome Tools

| TOOL | # of items | Flexible Tool | Valid & Reliable | Rating Scale | Unique attributes | Pros | Cons |
|-------------------------------|----------------------------|---------------|------------------|-------------------------|--|--|---|
| SD Self-Created Survey | 10 | Yes | No | 4-point Likert w/ emoji | Too much focus on service coordinator | Simple Emoji rating scale | Not valid or reliable Focuses only on service coordinators |
| ECO - | Full 41 Part B – 17 | TBD | Yes | 5-point Likert | Includes items that represent RBI and RBHV and both service coordination and provider services | Measures what we need Valid & reliable Used by multiple states 5-point scale Focuses on all early intervention Questions connect to our evidence-based models Cost savings to do own analysis If using part B only keeps it short | No emoji rating |
| NCSEAM | Full 51 Revised: 25 | TBD | Yes | 6-point Likert | Includes items that represent RBI and RBHV and both service coordination and provider services | Measures what we need Valid and Reliable Used by multiple states Questions connect to our evidence-based models If using one part only keeps it short Focuses on all early intervention | Costly analysis that give us un-needed data Complicated rating scale Mature reading level |

ECTA Map

Approaches to Family Outcomes

QUESTION:

How often should the tool be distributed?

CURRENT PRACTICE:

Each family receives one survey during transition meeting or upon exiting the program.

OPTIONS:

- Keep current practice
- Family receive on annual basis
- Other

Frequency of
Distribution

QUESTION:

How should the survey tool be distributed?

CURRENT PRACTICE:

Service coordinators hand hard copy, with self-addressed stamped envelope to each family during transition meeting. During COVID survey have been mailed out.

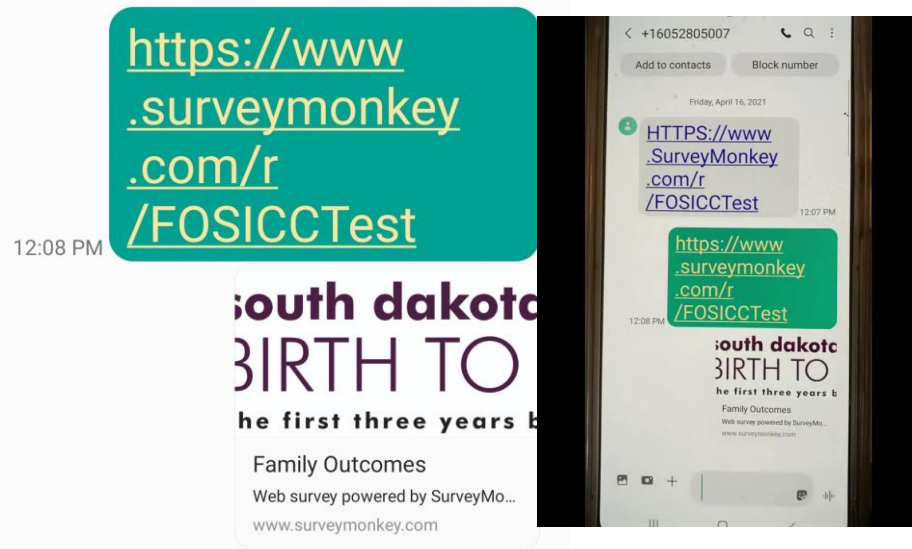

OPTIONS:

- Keep current practice (paper/hard copy mailed to state)
- Online link, unique to service coordinator/region
- Both
- Other

C4 Small Work Group Recommendation: Survey Tool

- It is the recommendation of the work group that the South Dakota Birth to Three program adopt as the tool to measure Indicator C4 data the Early Childhood Outcomes Center (ECO) Family Outcomes Survey – Revised Version.
- We further recommend the state make efforts to implement this tool beginning with the new federal reporting year that begins 7/1/2021.
- We ask the state to analyze the data collected in the first year and report back to the ICC in the spring of 2022 on the impact of the use of the new tool.

C4 Small Work Group Recommendation: Method of Distribution

- It is the recommendation of the work group that the South Dakota Birth to Three program begin, as soon as feasible, to distribute the Indicator C4 tool via an online format. Important considerations for the use of this tool include:
 - Ability to desegregate surveys by region;
 - Ability to send tool to parents via text and or email; and
 - Ability to send parent reminders to complete the survey.
- It is also recommended that parents have an option to receive and complete the survey using a hard paper copy of the survey in the event an electronic survey is not possible or acceptable for the family.
- We further recommend the state make efforts to implement this tool beginning with the new federal reporting year that begins 7/1/2021.

C4 Small Work Group Recommendation: Frequency of C4 Survey Distribution

The work group also recommends the state consider distributing the C4 survey to each family more often than at exit. However, we recognize there are changes that must be made to the existing data system to accurately capture this information and subsequently report to the federal Office of Special Education Programs (OSEP). Therefore, the group recommends over the 2021-2022 reporting year the state:

- Analyze the cost and feasibility of the Part C program moving to an annual distribution of surveys to all families;
- Compare the data collected with the new survey tool with historical C4 family outcome data; and
- Report back to the ICC in spring 2022 on the findings.

Thoughts? Reactions?

C4 Small Work Group Recommendation: Survey Tool

- It is the recommendation of the work group that the South Dakota Birth to Three program adopt as the tool to measure Indicator C4 data the Early Childhood Outcomes Center (ECO) Family Outcomes Survey – Revised Version.
- We further recommend the state make efforts to implement this tool beginning with the new federal reporting year that begins 7/1/2021.
- We ask the state to analyze the data collected in the first year and report back to the ICC in the spring of 2022 on the impact of the use of the new tool.

C4 Small Work Group Recommendation: Method of Distribution
